PROFICIENT: Python | Javascript | HTML | CSS | PostgreSQL | React | Flask

INTERMEDIATE: C | 3js | Bootstrap | Active Directory | Node | NPM · React.js | Databases

KNOWLEDGEABLE: GitBash | Ubuntu Linux | Jest | Express | Heroku | Netlify | API | HTTP

TECHNICAL PROJECTS

Data Structure Visualizer | Full Stack Developer | <https://ds-visual.netlify.app/> | 2023

The Data Structure Visualizer is a browser application that allows users to visualize data structures

- Designed the user interface and implemented the visualizations using 3js by developing the Flask-based routing system to handle user input and generate dynamic content.

- **Tech stack:** Python, Javascript, Flask, Jinja, 3js, custom CSS and Bootstrap for UI development;

Stock Trading API | Full Stack Developer | | 2023

Web-based stock trading simulation application that allows users to register, log in, and buy/sell stocks using real-time stock quotes.

- Built using Flask web framework, with SQLite database for data storage, and Python libraries Flask-Session for user session management.
 - Leveraged bootstrap for styling and the IEX Cloud API for real-time stock quotes.
 - Designed the application to be responsive, providing a seamless experience on various devices including desktops, tablets, and mobile devices.
- **Tech stack:** Python, Flask web framework, SQLite database, Flask-session, Werkzeug security library

EXPERIENCE

OZARK PIZZA COMPANY dba PAPA JOHNS | Area Supervisor | Tulsa, OK Jan 2015-Dec 2022

- Managed daily operations for two million-dollar stores and a concession stand at the BOK Event Center
- Trained and supervised a staff of 50 to maintain high standards of food preparation, presentation, and sanitation.
- Collaborated with cross-functional teams, including marketing, finance, and HR, to implement company initiatives and improve business performance.
